LOUIS DIAMS
THE DIAMOND STORY

Necklace length guide

Where each length sits, and how to pick for a pendant.

Length	Sits	Best for
40 cm / 16 in	At the base of the neck	Chokers, small solitaire pendants, layering
45 cm / 18 in	On the collarbone	Most pendants; our default length
50 cm / 20 in	Just below the collarbone	Larger pendants, open necklines
55 cm / 22 in	On the upper chest	Statement pendants, high necklines
60 cm / 24 in	Mid chest	Long chains, layering as the outer piece

How to check at home

Take a piece of string, hold it at the back of the neck and let it fall where you want the pendant to sit. Measure the string flat. Pendants add their own drop: a 12 mm solitaire pendant on a 45 cm chain sits about 1 cm lower than the chain alone.

Tennis necklaces are fitted: measure the neck at the base and add 2 cm. Every chain we make has a 2.5 cm extender available.
